MUHAMMAD NAWAZ QASIM

FRONT END DEVELOPER & WORDPRESS DEVELOPER

Mianwali, Punjab, Pakistan│ nawazqasim007@gmail.com│ https://www.alakbar.org

ABOUT ME

I'm Muhammad Nawaz Qasim, a dedicated computer science student eager to strengthen my foundational skills and continue my self-driven learning journey. I am excited about this opportunity because it will allow me to gain practical experience, improve my problem-solving abilities, and enhance my technical expertise. By securing this role, I aim to take charge of my skill development, work independently, and make meaningful contributions to the field of computer science.

EXPERIENCE

Star Technology   **May 2023 - March 2024**

- Developed user-friendly, responsive interfaces using HTML5, CSS, JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Implemented on-page SEO strategies such as keyword optimization, meta tags, and schema markup, leading to a 30% increase in organic search rankings.
- Played a key role in redesigning and launching multiple front-end interfaces.

Internship, Kairiz Cyber Technologies   **June 2024 - July 2024**

- Assisted in building WordPress sites for small businesses, focusing on theme customization, speed optimization, and security.
- Optimized websites for mobile responsiveness and cross-browser compatibility.
- Managed content updates, bug fixes, and minor development tasks for ongoing projects.

PROJECTS

                                                                        Jan 2023 - Jun 2024

- Designed and developed a fully responsive personal website optimizing for SEO and performance.
- Recreated websites like Amazon and Netflix using HTML, CSS, and JavaScript to sharpen front-end development skills and practice responsive design.
- Developed a C++ program to simulate CPU scheduling using the round-robin algorithm, improving understanding of OS scheduling techniques.
- Created a C++ program that solves Sudoku puzzles efficiently using backtracking algorithms.
